

ENVIRONMENTAL POLICY

Madrileña RED DE GAS, in keeping with the contents of our “*Mission, Vision and Values*” has created an **Environmental Policy** which encompasses the following **principles and commitments**:

- Alignment with higher-level environmental ideals and values, guiding management in progress towards sustainability and climate neutrality; even contributing to the sustainable development goals of the 2030 agenda.
- Firm commitment to **compliance with the laws in force and other commitments** assumed by the organisation, with special attention to identifying the expectations of the different stakeholders.
- Efficient and sustainable management of the use of resources, promoting energy savings. Minimization of the use of dangerous substances.
- Preventing **pollution** and **minimising** our “**environmental footprint**” by controlling and gradually reducing the **impact** of our activities, which is specified in:
 - Effective and adequate management aimed at minimizing the waste generated, as well as air pollution, soil, water, light, noise, greenhouse gas emissions and other atmospheric pollutants.
 - Promotion of measures for the protection of biodiversity and habitats.
- Application of **environmental criteria** in our relationships with and commitments to **customers, suppliers and contractors**.
- Implementation of **sustainable environmental strategies** for **continuous improvement** by planning and regularly monitoring environmental **goals and objectives**.
- Promoting internal **awareness-raising, information and training** on environmental issues.
- Approach to management of environmental risks, threats and opportunities; including the risks associated with the possible impacts of physical hazards, natural disasters, catastrophes and those derived from climate change (acute or chronic events)

To support the implementation of this **Environmental Policy**, the management of **Madrileña RED DE GAS** promises to provide the material, technical, economic and human resources needed to implement and maintain an **Environmental Management System** in accordance with **UNE-EN ISO 14001:2015**.

This **Environmental Policy** will be revised periodically to ensure that it is in line with the reality and circumstances of **Madrileña RED DE GAS**.

This document will be **published and distributed** for general information and for immediate application by the employees of **Madrileña RED DE GAS** in their respective areas of responsibility.

Pozuelo de Alarcón, June 22th 2021

Alejandro Lafarga Ibran
Chief Executive Officer
